Revisions, justification, etc.

General provisions were added to Chapter 1 to aid in interpreting the adoption of the CFR and to bring in the legally significant portions of the previous Chapter 41.

The definition of "28 source categories" was added to simplify references occurring throughout the title. ***The CFR reference for the newly-created definition of "28 source categories" was corrected; will use the appropriate CFR reference as applicable throughout the various chapters.***

The definition of "common control" was created to support the updated definition of "Major Source". ***Renumbered consistent with formatting.***

The definition of "Support facility" was moved under the definition of "Major Source" since that's the only place it is used.

Revisions, justification, etc

Chapter 5 is now becoming section 001 of Chapter 6. The former title of Chapter 5 has been replaced with the title of the new Chapter 6, "Operating Permits".

Renumbered consistent with formatting. Former section title "Applicability and Scope" changed to new section heading "When Required". Wording had minor changes for clarity and to update references from 002 to 001.02 and 001.03.

Renumbered consistent with formatting. Changing terminology from "major source" to "Class I" and "Part 70" at the start of this new Chapter so there will be greater clarity when we begin referencing 40 CFR Part 70 for operating permit

Renumbered consistent with formatting. Deleted language about major sources being defined in Chapter 2 (as that chapter is now to be merged with Chapter 1) and instead referenced the definition of a major source, as a Part 70

Renumbered consistent with formatting. Adopting 40 CFR Part 70.3 and incorporating into Title 129. Deleted second sentence, as the language is not necessary with CFR adoption.

Deleted. Can be removed with CFR adoption in section 001.01A2.

Renumbered consistent with formatting. Language was reduced/streamlined, and the reference to Chapter 42 was stricken since that chapter will no longer exist after the title updates.

Renumbered consistent with formatting. Added the language "that is not a Class I source" for clarification.

Revisions, justification, etc

Chapter 7 is now becoming section 002 of Chapter 6.

Renumbered consistent with formatting. Merging section 001 and section 002 into one section.

Incorporating CFR reference into section "The owner or operator of a source that becomes subject to the Class I operating permit program at any time following the effective date of these regulations will file an application pursuant to 40 CFR Part 70.5(a)(1)". Deleting the last sentence, as part of its content was incorporated into the new language inserted, and the reference to Class II permits was to be moved into section 002.01B.

Because CFR language refers to a Class I permit, language needed to be added to address Class II permits.

The reference of CFR Part 70.5(a)(1) in section 002.01 enables this language to be removed.

The dates specified in this section have passed, and thus this language is no longer needed.

The dates specified in this section have passed, and thus this language is no longer needed.

Renumbered consistent with formatting. Section reworded for clarity. Added "and no longer than 10 months" and deleted "or such longer time as may be approved by the Director after notice to the permittee that ensures that the permit will not expire before the permit is renewed. In no event shall this time be greater than 18 months."

The dates specified in this section have passed, and thus this language is no longer needed.

Renumbered consistent with formatting. Added the term "operating" for clarity. Incorporated a reference to 40 CFR Part 70.5(a)(2) so subsequent sections of Title 129 can be removed - "An application will be deemed complete pursuant to 40 CFR Part 70.5(a)(2) ".

The reference of CFR Part 70.5(a)(2) in section 002.02 enables this language to be removed.

Renumbered consistent with formatting. Adding language "A request for confidentiality must comply with Title 115 requirements for submittal." to clarify that the Department is not able to hold some information confidential, pursuant to state statutes and Title 115. **Added "emissions data" to clarify that this information cannot be held as confidential.**

Renumbered consistent with formatting. Added the term "operating" for clarification. Added the language "Applicant will comply with requirements in 40 CFR Part 70.5(b)" to reference the CFR, and allow the remainder of the language in this section to be removed from Title 129.

Renumbered consistent with formatting. Added language "and Class II Operating" to clarify the section applies to both Class I and Class II permits.

Renumbered consistent with formatting.

Renumbered consistent with formatting. Added language to clarify the information in 40 CFR Part 70.5(c)(1) will be incorporated, and that will be the minimum amount required.

The reference of CFR Part 70.5(c)(1) in section 002.05B enables this language to be removed.

The reference of CFR Part 70.5(c)(1) in section 002.05B enables the first sentence to be removed. The second half of that sentence becomes 002.05B1.

002.05E

The reference of CFR Part 70.5(c)(1) in section 002.05B enables this language to be removed.

Renumbered consistent with formatting. Added "A Class I" for clarification. Incorporated 40 CFR 70.6(f)(2) instead of referring to Chapter 8, section 014; which itself would be CFR incorporated by reference.

Language from former section 007.05 was added here because by merging the Class I and Class II form sections together, this text is needed to clarify requirements for Class II applications.

Renumbered consistent with formatting. Incorporated a reference to 40 CFR Part 70.5(c), adding the language "The list will be made available by the Department and updated as necessary." and deleted the language "exempted from the requirements of sections 006.02 of this Chapter and 002 of Chapter 6. The list shall be made available by the Department and updated as necessary."

Renumbered consistent with formatting.

Renumbered consistent with formatting. Updated references from Chapter 5 section 001.02 to section 001.01. Added the language "engine used on an emergency generator" and deleted "back up generator" to maintain consistent language and provide clarity.

Renumbered consistent with formatting. Deleted the acronym (R&D) because it is not used elsewhere besides this section. Inserted the language "research and development" instead. Added the language "for purposes of permitting".

Renumbered consistent with formatting. Added "The Compilation of Air Pollutant Emission Factors", the official name of AP-42 emission factors, for clarity.

Language from former section 007 was added here because by merging the Class I and Class II form sections together, this text is needed to clarify requirements for Class II applications.

Renumbered consistent with formatting. Deleted the words "the following" as section 006.04A and 006.04B are going to merged into this section.

Deleted the language "The applicant must provide all such" and replaced with "any" and "the applicant will need to include in the application that is". Added "The Department may request additional information as determined". The language of this section merged with language from prior sections 006.04 and 006.04A.

The reference of CFR Part 70.5(c)(1) in section 002.05B enables this language to be removed.

Renumbered consistent with formatting. Incorporating 40 CFR Part 70.5(d) so the rest of the section's language can be

Renumbered consistent with formatting. Incorporating 40 CFR Part 70.7(a)(2) reference per regulatory review

Revisions, justification, etc

Chapter 8 is now becoming section 003 of Chapter 6.

Renumbered consistent with formatting. Combined with section 003.

Renumbered consistent with formatting. Added the language "Each permit will specify emission" and "pursuant to 40 CFR Part 70.6(a)". Removed the last line of the section, as that language was covered by incorporated CFR reference. The last sentence of section 002.03 was incorporated into this section.

This section was removed because the content was incorporated by the CFR reference in section 003.01

This section was removed because the content was incorporated by the CFR reference in section 003.01

Most of this section was removed because the content was incorporated by the CFR reference in section 003.01. The last sentence of the section was incorporated into section 003.01.

Renumbered consistent with formatting. Language originally proposed for section 003.01, which included a reference to 40 CFR Part 70.6(a)(2), was incorporated into this section instead. By reference the CFR, we remove the requirements for a Class II permit to automatically have to be renewed every five years. This change will put us in line with other states in our EPA region.

Deleted. Language incorporated into section 003.03 above.

Renumbered consistent with formatting. First sentence deleted as that information was part of the CFR reference in 003.03. Language added "Notwithstanding 003.03, the Director may issue a Class II permit for a term that exceeds five years." to allow the Department to issue a Class II operating permit for a period longer than five years when the situation warrants.

Renumbered consistent with formatting. Added the term "operating" for clarification. Divided second half of that section into a new section , 003.03C.

Renumbered consistent with formatting. Added the terms "expired" and "operating" for clarification. Updating reference from Chapter 12 to sections 007 and 008 of Ch 6.

Renumbered consistent with formatting. Removed the term "permittee" and replaced with "source", as source is defined in Title 129, but permittee is not.

Renumbered consistent with formatting. Removed the term "permittee" and replaced with "source", as source is defined in Title 129, but permittee is not. Added the terms "operating" for clarification.

Deleted. The language in this section was covered by in the CFR reference in section 003.02 above.

Deleted. The language in this section was covered by in the CFR reference in section 003.02 above.

Renumbered consistent with formatting. Added the language "Each Class I and Class II operating permit will contain" for clarify. Added 40 CFR Part 70.6(a)(3) reference Added language "the permit may specify that records may be maintained in computerized form" to allow the source to keep its records in electronic form rather than paper if so desired.

Deleted. The language in these sections was covered by in the CFR reference in section 003.03 above.

Specifies the deviation reporting schedule for Class II sources.

Renumbered consistent with formatting. Added the language "Each operating permit will incorporate all applicable reporting requirements pursuant to 40 CFR Part 70.6(a)(3)(iii)". Deleted the redundant language that follows the CFR reference.

Deleted. The language in these sections was covered by in the CFR reference in section 003.04A above.

Deleted. The language in these sections was covered by in the CFR reference in section 003.04A above.

Renumbered consistent with formatting. Reshuffled wording, moving "reporting" to the front of the sentence for clarity in reading, Replaced the word "permittee" with "source" as "source" is defined in Title 129 and "permittee" is not. Added the phrase "in the event" for clarity.

Chapter title "Controls for Transferring, Conveying, Railcar and Truck Loading at Rock Processing Operations in Cass County" incorporated into revised section 005.

Chapter text numbered as section 005.01; text reworded to reflect that the Department no longer uses potential emission references, but actual emissions, and that emission control equipment should be used full time; also allows the flexibility for Department staff to address compliance issues, not just the Director.

Revisions, justification, etc

Chapter 22 is now becoming Chapter 14.

Replaced "those" with "any incinerator meeting the exemption criteria" for clarification. Updated chapter 17, section 001.03 reference to Chapter 3, section 001.01B for consistency with new title formatting.

Removing chapter and section reference to Title 128 because that title is also going through a regulatory review process and the section references may be incorrect.

Replacing "furnaces" with "incinerators" for consistency with language used in Chapter 20 and definitions in chapter 1.

Added language to include "contraband" and "takeback activities" to further clarify law enforcement operations associated with this section.

Removed "100 percent" throughout the section as it was not necessary, too repetitive, and made for easier reading.

Added the wording "that only contains one or more of those three materials and complies with section 007 of this Chapter" from section 001.05A below; while removing the language "of only wood waste, clean lumber, and/or yard waste". Updated chapter and section references: Chapter 18 section 001.68 and 001.69 to Chapter 12 section 001.67 and 001.82, respectively; chapter 30 section 002.07G to chapter 15 section 002.02G7.

Language in this section is not necessary as it has been incorporated into section 001.05.

Language "be discharged into the outdoor atmosphere to" removed as it was not necessary, and made it awkward for reading. Spelled out "7%" per grammatical formatting.

Updated chapter reference from Chapter 34 to chapter 15. Added the word "performance" before 'test report' for clarification of what kind of report is required.

Removed the term "adequate" twice, as it is vague and undefined what would be considered 'adequate' and does not alter the meaning of the section.

Changed wording from "to" to "for" as a permit is not issued to an emitting unit but to the source that has that unit.

Updated chapter reference from Chapter 20 section 005 to Chapter 15, section 001.06.

Removed language "which combust only clean lumber, wood waste, and/or yard waste shall" in conjunction with the changes made in Ch 14, section 001.05, and added that reference language "that meet the requirements of section 001.05 of this Chapter will" for said clarification.

Spelled out the number "3".

Replaced the word "keep" with "maintain" and added the word "report" behind "opacity test" to make the language of this subsection consistent throughout the section.

Replaced the language "or for an inspector's onsite review" with "during an onsite inspection and available" for easier readability.

Changing the order of words in the second sentence, from "submit" to "to be submitted" for easier readability. Added "The opacity test reports will be submitted electronically or by paper copy with 60 days of the test" to merge section 007.05D with this section.

This section was deleted as the text was merged with section 007.05C.

This section was deleted as the language was repetitive of language in section 007.05A

| <p>Chapter is proposed for repeal. Chapter 40 describes the applicability of federal conformity regulations in 40 CFR Part 93, Subpart B to the area of Douglas County which was previously designated as nonattainment for lead on April 6, 1992. On April 20, 2001, EPA published notice in the Federal Register (77 Fed. Reg. 20196) of a direct final rule that declared re-designation of this area of Douglas County as now in attainment for lead.</p> |
